## Summary

Previously a student at Neath Port Talbot College studying a Bachelors (Hons) in Applied Computing finishing with First Class Honours. Hoping to progress myself into a Software Engineering position.

Self-driven and enthusiastic, passionate about fast and reliable software for small and large scale systems. Often learning new methods to write software, from the low-level aspect to higher level abstractions. Fascinated by Functional Programming especially Scala and Go

## Experience

### Flutter Developer

Swansea University

Dec 2018 - May 2019 (6 months)

6 month contracted placement, developing mobile applications using Android and Flutter respectively. Fitted with a Clojure backend using Compojure that was slowly migrated to Scala Akka Http for greater concurrent needs.

## Education
